

1-15DS SHOT BLASTER

A WALK-BEHIND SHOT BLASTER FOR SURFACE PREPARATION

The Blastrac 1-15DS blast-cleaning machine offers a high level of versatility for any size job site. Its heavy duty blasting ability makes it ideal for large sized surface preparation applications. The 1-15DS is a shot blasting machine of high quality and strong fabrication and equipped with its own height adjusting system for easy transportation. In addition, its drive motor for self-propelled operation features an integrated brake which helps maintain speed on ramps and inclines.

The 1-15DS is dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of dust collectors, consumables and optional items which give the opportunity to process any floor and specific application.

-  380 mm
-  450 kg
-  1.800 mm | 570 mm | 1.200 mm
-  Up to 250 m²/h on concrete | Electric / 0,5 - 25 m/min
-  15 kW | 400 V | 50/60 Hz | 63 A | Three Phase | 5 Pole
-  10 - 75 gr/m²
-  Backward (Pull)
-  Ø150 mm
-  85 dB(A)
-  Less than 2,5 m/s²
-  Stone | Concrete | Asphalt

CLOSED CIRCUIT

The 1-15DS has to be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

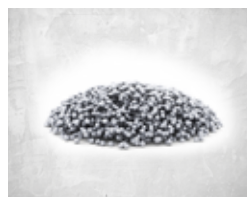

DRIVE MOTOR

The machine is equipped with a drive motor for ease of use.

PERFECT FOR SURFACE PREPARATION

The Blastrac 1-15DS shot blaster is perfect to clean and prepare surfaces, such as steel, concrete and asphalt before the application of a new coating.

STEEL ABRASIVES

Depending on the material you want to remove and the result you want to achieve, you can choose different types of abrasives.

DUST HOSE & CABLE HOLDERS

The 1-15DS is equipped with a dust hose and cable holders in order to make operations easier while blasting.

STEERING HANDLE

This economical, self-propelled shot blasting machine features drive controls on the steering handle.
